# STERILIZATION CONTROL PRODUCTS

# Acidex VGB Iodine 30

Povidone Iodine Solution

Composition	%w/w
Povidone Iodine	9.7
Sodium Lauretha Ether Sulphate, Glycerine, Lanolin deionized water	

## Under pads

The under-pads are produced in a clean and controlled environment on Italian machines for superior quality. Raw materials are sourced from industry leading suppliers to ensure superior quality and product performance. The product has a soft feel to it which is a must for the end user. This is fit for use by medical institutions and for home care.

## Bowiedick Test Pack

Bowie Dick Test Packs are the testing packages that should be used before starting daily machine sterilization process for steam sterilization devices. Bowie Dick Test Pack is used for the purpose of testing whether there is air leakage and efficient steam penetration in the steam sterilizers.

Bowie Dick Test Packs color change allows assurance of whether the steam sterilizers are ready for the sterilization or not.

Different kinds of Bowie Dick Test Packs are available. These are Bowie Dick Test Pack 200 (wrapped in medical paper, wrapped in crepe paper and BD in box) and Bowie Dick Test Pack 400 (wrapped in medical paper and wrapped in crepe paper).

## Medical Crepe Paper

- High precision
- Rapid measurement in 10 seconds (rectal) or 17 seconds (oral)
- Automatic audible signal at the end of measurement
- Storage of the last value
- Automatic shut-off
- Each with transparent protective cover
